

Alternative 1 – No Build

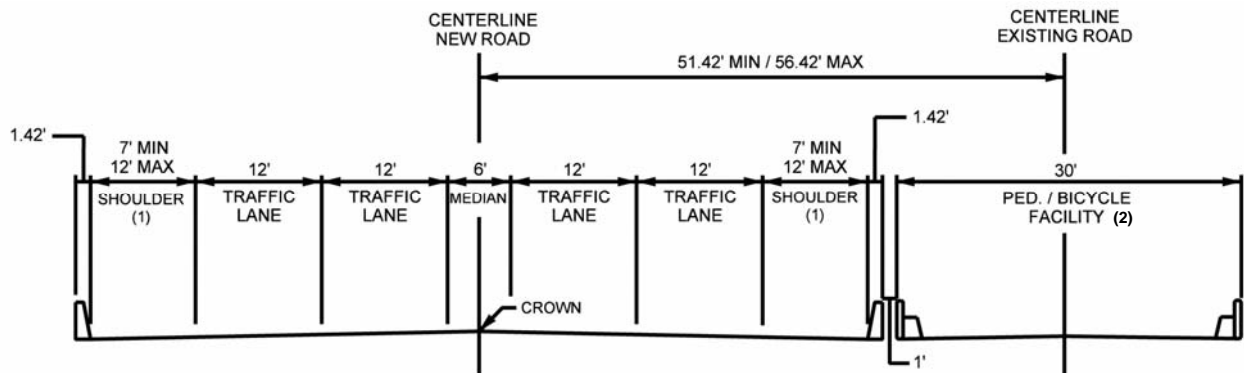

Alternative 2 – Widen Existing Bridge

Alternative 3 – New Southbound Bridge

Alternative 4 – New Bridge with Ped/Bike Facility on Existing Bridge

Notes:

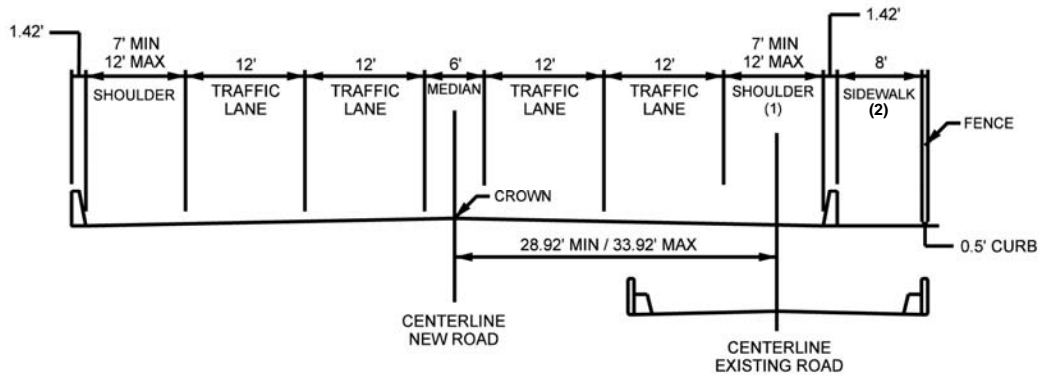

- (1) Shoulder width includes 2' barrier offset.
- (2) No longer applicable because of the separate Colorado River Pedestrian Bridge Project.
- (3) Existing structure to be overlayed to attain proper cross slope.

US-191 Colorado River Bridge
